

CSIT998 (A125) Professional Capstone Project

- ✓ **Assignment 4:** 10 marks, 10%
- ✓ **Due:** 29 Oct 2025
- ✓ **Final submission time:** 11:30pm

Requirements:

You need to upload two files in this assignment.

1. Your **project presentation** slides in **PDF format**.
2. A **video file** for your pre-recorded project presentation in **MP4 format**.

Further instructions:

- There will be **no live presentation**. However, your **pre-recorded video** will be played on the presentation date to the audience and then, there will be a 5-minute face-to-face Q&A session where all team members must be present. Your project will be evaluated based on your uploaded material and your performance in the Q&A session. You must have at least one computer ready that can make a full demonstration. You may be asked to modify your code on-the-fly during the Q&A session.
- Each project is going to be evaluated by the two subject coordinators and your supervisor.
- Prepare a video record **not exceeding 10 minutes**. You are expected to present your project and then showcase a demonstration in this video.
- Your pre-recorded video **must have subtitles**.
- Your video file must be in **MP4 format not exceeding 100MB**. You are free to choose any video recording/editing tool.
- The presentations will be between **30-31 October 2025**. Location & time information will be announced.

Note: You should agree with your supervisor about how to prepare your presentation. There are some tips here: <https://documents.uow.edu.au/~fuchun/scit-rpr.pdf>
